#### Methodical note:

The overview of visitor figures for the tourist attractions was compiled based on a survey of visitors to more than 1 300 tourist attractions, in collaboration with regional coordinators and destination management organizations. Even so, this is not an exhaustive list and so might not include certain sites. The data is based on figures provided by the operators of the individual tourist attractions on the total number of registered visitors, regardless of whether or not they paid admission. The data includes figures for visitors from Czechia and abroad.

If the operator of two or more individual sites has provided aggregate visitor figures, they are listed in the "combined tourist attractions" category. A set of tourist attractions promoted under one marketing brand is generally listed under the name of the main site or the operator's name.

The overview is merely indicative and is not intended to rate the performance of the individual attractions or operators. The aim is to create a unified database and support less frequented tourist attractions.

A man wearing a white helmet, a light green long-sleeved shirt, and yellow shorts is rappelling down a dark rock face. He is smiling and looking towards the camera. The background shows a clear blue sky and a lush green forest. Below the rock face, a body of water is visible. The text 'unexpected' is written in white, underlined, and 'relaxation' is written in white, bold, sans-serif font.

**relaxation**

There are many places you can hang out with friends and relax. If you choose ferratas, you rock. Active holiday or a spa break? Have both at once.
